

DVB-T NYTRO BOX NSE

OPTICUM Nytro Box NSE

Manufacturer: [Opticum](#)

Description

Digital terrestrial TV receiver. It enables the reception of high and low definition channels (HD and SD). It is necessary to connect the DVB-T and TV antenna via HDMI or SCART. Only the correct positioning of the antenna will ensure the appropriate quality and signal strength. The device has the function of recording programs on an external disk as well as multimedia playback (photos, music, films). User-friendly multilingual on-screen menu.
