

INST OPTICAL METER

Optical Power Meter

Manufacturer: [GLOBAL INVACOM](#)

Description

The GI optical power meter provides precision measurement of optical power in Global Invacom Fibre IRS systems. Ideal for testing system function, maintenance and fault finding.

Large screen graphics LCD

Measures wavelengths 850nm

Self calibration function

Battery powered

. Detector: Filtered InGaAs

. Optical range (dBm) MIN:-50 / MAX:+26

. Optical wavelength (nm): 850,1300,1310, 1490

. Uncertainty: +5%

. Resolution ratio (dBm): 0.01

. Input (Optical): FC type adapter

. DC power 2xAA Batteries (not supplied)

. Size (mm): 165x80x35
